PROFESSIONAL SUMMARY

Front-End Developer / Web Developer and Information Systems (Business Analytics) student with 2+ years of hands-on experience in web development and front-end development, building responsive, component-based web applications using HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript, and Tailwind CSS. Skilled in REST API integration, Redux and Context API state management, responsive design, UI/UX design principles, and building scalable, cross-browser-compatible interfaces. Proven ability to debug and troubleshoot issues, use Git and GitHub for version control, and collaborate within Agile development teams to deliver production-ready platforms and portfolio projects.

SKILLS

Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js

Styling & Web Design: Tailwind CSS, Bootstrap, Responsive Design, Responsive Web Development, Mobile-First Design, Cross-Browser Compatibility

State Management & Architecture: Redux, Context API, Component-Based Architecture, React Router, Scalable Application Design

Tools & Platforms: Git, GitHub, Version Control, VS Code, Figma, Vercel, GitHub Pages

Practices: Web Development, Front-End Development, REST API Integration, UI/UX Design, Agile/Scrum Workflow, Code Review, Pull Requests, Debugging, Performance Optimization, Troubleshooting, Team Collaboration

Additional: Cyber Security Fundamentals, Problem Solving, Attention to Detail, Bilingual (Arabic/English)

EXPERIENCE

Front-End Developer — *Freelance / Personal Projects*

01/2023 – Present

- Develop and maintain responsive, cross-browser websites and admin dashboards using React, JavaScript, Redux, and modern CSS, improving UI consistency across 6+ client and personal projects.
- Collaborate with a 3-person development team to build DevSync Agency, a software agency platform combining a dynamic public website with an admin dashboard powered by REST APIs, using Next.js 15, React, TypeScript, and Tailwind CSS.
- Deploy production-ready websites on Vercel and GitHub Pages across e-commerce, healthcare, dashboard, agency, and real estate domains, ensuring fast load times, scalability, and mobile responsiveness.
- Partner with a small freelance team to build a client portfolio and pursue initial paid front-end development engagements.

Web Development Projects — *Self-Directed Learning*

01/2022 – Present

- Built and deployed 10+ independent front-end projects, including e-commerce dashboards, creative agency sites, and real estate platforms, strengthening proficiency in HTML5, CSS3, JavaScript, and Bootstrap.
- Applied Git-based version control and code review practices to simulate real-world collaborative development workflows.

PORTFOLIO PROJECTS

DevSync Agency — *Next.js 15, React, TypeScript, Tailwind CSS*

- Built a software agency platform with a dynamic marketing website and an admin dashboard, integrating REST APIs for real-time data management; collaborated with a 3-member team using Git workflows.

Live Demo: <https://devsync-agency.vercel.app/>

ShopCo — *React, Vite, React Router, Context API*

- Developed a full-featured e-commerce platform with product browsing, wishlist, shopping cart, secure checkout, and user authentication, using Context API for global state management.

Live Demo: <https://shop-co-one-mu.vercel.app/>

Bright Smile — *Next.js 15, TypeScript, Tailwind CSS, Framer Motion*

- Designed and built a dental clinic website with animated UI components (Framer Motion) to showcase services and streamline appointment booking.

Live Demo: <https://bright-smil.vercel.app/>

TechMart Dash — *HTML5, CSS3, JavaScript, Chart.js*

- Built a data-driven e-commerce admin dashboard with a dark-mode UI, using Chart.js to visualize sales, user, and inventory metrics.

Live Demo: <https://eng-tarek-cyber.github.io/-/>

Studio Hub — *HTML5, Bootstrap 5, CSS3, JavaScript*

- Developed a responsive creative agency platform to showcase professional services and portfolio work using the Bootstrap 5 grid system.

Live Demo: <https://eng-tarek-cyber.github.io/agency-new/>

Aqar Vision — *HTML5, CSS3, JavaScript, Bootstrap*

- Built a real estate platform to showcase residential units and villas with a responsive, mobile-first layout.
