

Tarek Ahmed Eid

Front-End Developer | React.js & Next.js

snamr015@gmail.com • +201006494164 • Kafr El-Sheikh, Egypt

[LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Summary

Front-End Developer specializing in React.js and Next.js. Builds responsive, modern web applications with TypeScript, JavaScript, and Tailwind CSS. Experienced in integrating REST APIs and building reusable UI components. Seeking an entry-level Front-End role to grow and contribute to a professional team.

Education

Bachelor's Degree in Management Information Systems (MIS) at Higher Institute of Management & Information Technology , Kafr El-Sheikh, Egypt **September 2024 - Present**

Studying Management Information Systems (MIS) with a focus on business technology and information systems. Building practical front-end skills with React.js, Next.js, and TypeScript through hands-on projects.

Experience

Front-End Developer at [T.E Digital \(Freelance\)](#), Remote **January 2025 - Present**

Developing responsive and modern web applications using React.js, Next.js, TypeScript, and JavaScript. Building reusable UI components, integrating REST APIs, managing application state with Redux Toolkit and React Context, and creating responsive interfaces with Tailwind CSS. Working on real-world projects including e-commerce platforms, healthcare websites, restaurant websites, and admin dashboards.

- Built and deployed multiple web projects using React.js, Next.js, and TypeScript
- Developed responsive and user-friendly interfaces optimized for desktop and mobile devices.
- Implemented API integration, state management, reusable components, and performance-focused front-end solutions

Skills

Front-End Development: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design.

State Management: Redux Toolkit, React Context API

API Integration: REST APIs, Postman ,Gemini API

Tools & Version Control: Git, GitHub, VS Code

UI & Performance: Figma to Code, Framer Motion, Performance Optimization

Projects

ShopCo – Modern E-Commerce Platform • [GitHub](#) • [Live Demo](#)

E-commerce website built with React.js, JavaScript, and Tailwind CSS. Fetches product data from the DummyJSON REST API and lets users browse products, add items to a cart, and save a wishlist.

- Integrated the DummyJSON REST API to display products dynamically
- Built cart and wishlist features with state saved in localStorage
- Added product sliders using Swiper and a responsive layout with Tailwind CSS

Abyssal Elegance – Fine Dining Restaurant App • [GitHub](#) • [Live Demo](#)

Bilingual (English/Arabic) restaurant web app built with React 19, TypeScript, Vite, and Tailwind CSS. Includes an interactive menu, table reservation flow, and an AI Sommelier powered by the Google Gemini API.

- Built an interactive menu with search, filters, and favorites
- Integrated the Gemini API to recommend dishes to users
- Added English and Arabic language support
- Deployed the app using Docker on Railway

Bright Smile Dental Clinic Website • [GitHub](#) • [Live Demo](#)

Responsive website for a dental clinic built with React/Next.js, TypeScript, and Tailwind CSS. Includes pages for services, doctors, testimonials, pricing, articles, and contact.

- Built a multi-page website with a booking form
- Designed a clean, mobile-friendly layout
- Used TypeScript for safer, cleaner code

Enterprise Admin Dashboard • [GitHub](#) • [Live Demo](#)

Admin dashboard built with Next.js, TypeScript, Tailwind CSS, shadcn/ui, and Recharts. Includes authentication screens, a sidebar, statistics cards, and charts.

- Built reusable UI components with shadcn/ui
- Visualized data using Recharts
- Designed a responsive dashboard layout with a collapsible sidebar

Languages

Arabic - Native

English - Conversational
